Eiffel Series

The names of 72 French scientists, engineers and mathematicians who contributed to the construction of the tower were engraved on the balconies of the Eiffel Tower. We wanted to keep them alive by giving these talented names to our collections.

Kulenin insasında emegi geçen 72 Fransız bilim adamı, mühendis ve matematikçinin isimleri Eyfel Kulesi'nin balkonlarına kazındı. Bu yetenekli isimleri koleksiyonlarımıza kazandırarak onları yasatmak istedik.

ELLE
DECORATION

We are very pleased to present the outdoor living products of ELLE Decoration, the fashion and decoration brand born in Paris and spread all over the world. We aim to transform your living spaces into a work of art by combining functionality with aesthetic details bearing the ELLE Decoration signature in each of our models.

This catalog aims to impress you with its product variety, as well as presenting you the ELLE Decoration aesthetics and modernity. We are sure that our collection will bring a unique atmosphere to your living spaces by offering options suitable for every taste. ELLE Decoration will now be available in every environment where you get plenty of oxygen.

"Get's Go Out! There is ELLE Decoration Outside"

We wish you happy discoveries!

Wood is a frequently preferred material for interior and exterior spaces with its aesthetic and natural appearance. Wood, known for its strength and durability, can also be used easily in open areas such as balconies. Wooden balconies add a warm and inviting atmosphere to the space and also create an atmosphere in harmony with nature. Wooden materials can have a long life with the right care and protection methods. Therefore, it provides a great advantage both visually and functionally when used on balconies. Wooden balconies are a great way to add value to your home and bring the beauty of nature into your living space.

Triger

This product, which stands out with its colorful structure and impressive design, is made of aluminum, rope and fabric in different colors. The durability of aluminum, the flexibility of the threads and the softness of the fabric come together to offer both aesthetic and functional use. The harmonious use of these various materials gives the product a unique character and takes it away from the ordinary. While the vibrancy of the colors offers a remarkable visual appearance, the quality of the materials ensures long-lasting use. Therefore, it is an ideal choice for both decorative and practical purposes.

Special designs that combine the patterned aluminum structure and the naturalness of wood are among the striking elements of modern architecture and interior decoration. The durability and lightness of aluminum, combined with patterns, provide an aesthetically appealing appearance. While this material can be used both indoors and outdoors, it creates a pleasant balance by contrasting with the warm and natural texture of wood. Special designs that stand out give spaces a unique character and appeal to the visual taste of users. This combination is a perfect example of how modern and natural elements can be used together in harmony.

Tresca

Tresca seating group is a perfect option for gardens. This seating group, which draws attention with its curved structure, brings together aesthetics and elegance. While wooden details add a natural touch, handcrafted weaves are an indicator of quality and care. Prioritizing comfort, the Tresca seating group is designed for you to have a pleasant time in your garden. This furniture, which is satisfying both visually and in terms of usage, will bring elegance and comfort to your garden.

Simon

Simon is a design marvel that attracts attention with its aesthetic structure. The structure of the fabric surrounding the aluminum gives it both a modern and sophisticated appearance. This combination is not only visually appealing, but also offers comfortable and robust use. The durability of aluminum and the softness of the fabric make Simon ideal for use both indoors and outdoors. These features make Simon both a functional and stylish option, providing its users with a long-lasting and comfortable experience.

Dulong

Dulong, a design that elegantly combines classic and sports lines, offers both elegance and comfort in home decoration. While the magic of wood adds naturalness and warmth to the space, comfortable throw pillows increase comfort. Especially the wooden coffee table details add an aesthetic touch to the space and attract attention with its functionality. This type of design approach is an ideal choice for those who want to create a living space that is both eye-catching and useful. The combination of the naturalness of wood and contemporary lines creates a peaceful and stylish atmosphere at home.

Lame

The carefully crafted ireko tree appears as a symbol of elegance and durability at the point where nature meets in its purest form. This exotic wood type attracts attention in every space with its unique texture and deep, warm tones. When blended with vibrant colors, it literally brings the fresh and energetic spirit of spring to your living spaces. Ireko wood, processed in accordance with high quality standards, not only offers aesthetic beauty, but also gives confidence to its users with its long-lasting and solid structure. Each piece has been meticulously processed and turned into a work of art with attention to detail. Heralding the arrival of spring, Lame is the perfect choice to add the vitality and warmth of nature to your living spaces.
